

Eassee3D[®] Bumper for iPad

Eassee3D[®] technology is MADE IN GERMANY, with which you can watch 3D movies on all current iOS devices (iPhone / iPad). The system consists of the Eassee3D[®] app, that can be downloaded from the iTunes store, and the respective frame for the corresponding iPhone / iPad.

Eassee3D[®] Bumper for iPad

The "Eassee3D[®] Bumper for iPad" is a frame made of high quality stainless steel, in which the patented Eassee3D[®] Parallax Layer lenticular sheet is already firmly clamped. The iPad sits perfectly safe in this bumper and can simply be removed after watching a 3D movie.

When not in use the bumpers' film slider can also easily be attached to the back of the iPad. Thus, the 3D film is always there - but until then, protects the back of the iPad against scratches. In this case there is a second slider without Eassee3D film pushed onto the upper surface of the bumper to enclose the iPad.

Integrated Eassee3D[®] film

The Eassee3D[®] Parallax Layer lenticular sheet is already integrated into the bumper, so 3D experience without glasses is possible anytime and anywhere! The bumper has been designed that all functional elements remain readily operable by the film and thus the touch functionality remains 100%.

3D videos without glasses with more than 3 Mio pixels

The Eassee3D[®] technology supports every generation of iPad (2/3/4). With Eassee3D[®] App you simply choose your iPad type and 3D enjoyment just starts. With Eassee3D[®] App all actual 3D videos in side by side are playable. Also the app offers more functions to increase your special 3D feeling.

The Eassee3D® system

Eassee3D® is a system for playback of 3D content on high-quality displays. It uses the latest, patented Parallax Layer lenticular technology that makes it possible to interlink two different video image informations in a way that in playback with the original Eassee3D® FrameKit a very clear 3D effect is perceived.

The current Eassee3D® App is available at the Apple iTunes Store for free download. With the app it is possible to watch your own videos, which are loaded via iTunes on the iPhone / iPad. In addition to already over 280,000 videos that can be enjoyed in 3D on Youtube.

The Eassee3D® app contains a new YouTube player for the playback of 3D side by side movies. Further more, the 2D/3D function enables everybody to convert every clip instantly in realtime from 2D to 3D to have a great 3D enjoyment.

Look for the Eassee3D® PLAY characters. You can find it in the future more and more on different websites. It points out that from this point simply a corresponding 3D video on the iPhone / iPad can be played, press link and follow the instructions.

Creating some links to 3D videos to distribute them via email, Facebook, blog, or your own website? No problem. Eassee3D® provides on www.Eassee3D.com a free Eassee3D® link generator which generates 3D with a callable 1-click links.

QR codes bring immediately to the goal. Eassee3D® supports this technology. Scan Eassee3D® QR code and assume directly Eassee3D® app playback of the corresponding 3D video. Thus, millions of websites offering direct access to their 3D content. Simple and for free.

The **virtual 3D camera** is part of the newest Eassee3D® app version. Make your own 3D pictures and enjoy them directly on your iPhone or iPad. There is no need to buy a 3D camera any more. The new Eassee3D® app includes it FREE of charge. You can share your 3D pictures instantly by email or on Facebook.

The new **Eassee3D® Realtime Converter** converts every mp4 movie in realtime to 3D. The new algorithm makes it possible to enjoy every 2D movie now in 3D with great performance. Access your 2D clip, choose 2D/3D and enjoy instantly your favorite movie in 3D. You never will run out of stock promised.
